ABOUT ME

Frontend Developer with practical experience building web applications using React, TypeScript, Next.js, Redux Toolkit, and REST APIs. Currently deepening my expertise in React and modern frontend architecture, while expanding my knowledge of Next.js and data-fetching solutions.

SKILLS

- HTML / CSS (SCSS)
- TypeScript / JavaScript
- React
- Next.js
- Redux Toolkit / RTK Query
- TanStack Query
- REST API & Axios
- ReactHookForm
- Zod
- StyledComponents
- RadixUI, MaterialUI
- Git/GitHub

LANGUAGES

Russian - Native
English - B1 (in progress)
German - A2 (in progress)

EDUCATION

IT-INCUBATOR

Front-end development | 2025-2026

Intensive training in modern frontend development with a focus on JavaScript, TypeScript, React, Next.js, Redux Toolkit, RTK Query, REST API integration, and Git.

EXPERIENCE

IT-INCUBATOR

Frontend Developer Intern | 2026 - present

Lumos — Social Media Platform

- Developed a social media platform for creating and sharing photo stories, with profiles, feed, subscriptions, favorites, search, and messaging.
- Implemented responsive and reusable UI components using Next.js, TS, SCSS, and Radix UI.
- Integrated REST APIs and managed server state and data fetching with TanStack Query.

PROJECTS

- TMDB / Kinopoisk — Movie search and discovery platform using external APIs. (React, TypeScript, Redux Toolkit / Query)
- ToDoList — Task management application with CRUD operations and authentication. (React, TypeScript, RTK Query, MUI)
- MusicFun — Music streaming interface with playlists and album browsing. (React, TypeScript, Redux Toolkit, RTK Query, CSS Modules)
- Horizon — Full-stack banking application (Next.js, TypeScript, Appwrite, Plaid, Dwolla, React Hook Form, Zod, Tailwind CSS, Chart.js, ShadCN)
